To Whom it May Concern:

This is to acknowledge and commend the valuable consulting and training services provided by MountainTop Institute for the Study Circles Initiative of the Jacksonville Human Rights Commission.

Bryant Rollins and Shirley Stetson have played critical roles as members of the Study Circles Steering Committee. They have been key in the development of the Study Circles Initiative, and our ability to engage residents of Jacksonville in deep and healing dialogue about race relations and cultural diversity.

The work of the Institute in training Study Circles trainers has been foundational in our ability to offer the Study Circles to more than 1,000 residents of Jacksonville.

We want to acknowledge the quality of the Institute's contribution, and to confirm our appreciation and support for its on-going efforts in Jacksonville and nationally.

Sincerely,

Bill David
